AMER BECOMES BOSS OF SYRIA

LONDON (Reuters). — Marshal Abdul Hakim Amer, the U.A.R. Vice-President, War Minister and Commander-in-Chief, has been given sweeping duties and powers in the Syrian Region, Cairo Radio announced on Wednesday night.

Under a presidential decree, Marshal Amer assumes control over the organization of the National Union in the Syrian Region. The National Union is the basis on which the U.A.R. Assembly is due to be formed in the next few months.

The U.A.R. Education Minister, Major Kamal el-Din Hussein, assumes under the same decree the duties of organizing the National Union in the Egyptian Region.

Under another presidential decree, Marshal Amer was given control over the process of unification of the two regions and for the execution of general policy in the Syrian Region. He has been given the task of drafting and coordination of general policy in matters of unity between the two regions, to supervise and control the implementation of this policy, and will be responsible to the President of the Republic (Abdul Nasser).

Amer will be in charge of all matters of Syrian development within the framework of the general budget, and will supervise its implementation. He will also control the working of ministries and public institutions in Syria. The Executive Minister of the Syrian Region will be responsible to him.

Under another decree, the Syrian Minister of Interior, Abdul Hamid el Sarraf, is appointed to be in charge of the Directorate of Propaganda and News in the Syrian Region.

Officer Wounded By Syrian Fire

The commander of an Israeli patrol was slightly wounded when Syrian soldiers at 3.45 p.m. yesterday opened fire on the unit which went to rescue two Israeli tractor drivers who were attacked while working in the Hula fields north of Ashdod, the Army spokesman has announced.

There were no other casualties, and the Syrians left Israeli territory after a short while.

A complaint has been lodged with the Israel-Syrian Mixed Armistice Commission.

'Expelled' Beduin Must Prove Citizenship

POST Diplomatic Reporter

Israel's proposals that leading sheikhs of the Sarafim tribe of the Azazme Beduin confederation be brought by U.N. Observers from Jordan to prove their allegations of expulsion from Israel territory was accepted on Wednesday at the Israel-Jordan Mixed Armistice Commission session.

It is understood that if they are able to prove that they and their tribesmen are Israel citizens and residents they will be allowed to return.

Reuters reported from Amman on Tuesday that if the Israel-Arab conflict is to be settled there must be concessions from both sides.

Speaking in a Service Club address, Dr. Patmi said that the Arabs must accept the existence of Israel as a state and Israel must take back all refugees who wish to return.

"Obviously, Israel can't take all the refugees back. But not many want to go back — perhaps up to 100,000 — and Israel should accept these," he said.

Dr. Patmi suggested three steps to reduce Middle East tensions: the incident yesterday in the Gaza Strip late Sunday night attempted to penetrate into Moshav Nir Mohe, in the Western Negev, was driven off by the rifle fire of the settlement's guards.

Police believe they are the same marauders who stole five cows and a horse valued at IL5,000 from the settlement two nights previously.

KASSEM 'EXCELLENT'

BAGHDAD (Reuters). — The doctor treating Major-General Abdul Karim Kassem, the Prime Minister, has stopped issuing medical bulletins because "he is enjoying excellent health," Baghdad Radio said yesterday.

The radio announcement did not say when Kassem would leave hospital. In the final bulletin issued yesterday, the doctors said an X-ray examination showed very good calcification of the fracture of the left upper arm.

Take a cake of Shemen's new Menorah soap — now manufactured in accordance with a revolutionary process hitherto reserved exclusively for toilet soap. Cut the soap cake and you will note how hard it is — completely hard and dry inside and out.

That is why the new Menorah soap is more economical in use. Nor does it have the same odor as ordinary laundry soap, but a delicate, refreshing fragrance, and its appearance is an attractive ivory white. (Advt.)

Makarios Halts Talks with Turks On Constitution

NICOSIA (Reuters). — Archbishop Makarios announced last night that he had suspended all work with Turkish Cypriots on the preparation of a Cypriot Constitution "until the situation has been clarified."

The Archbishop said he had instructed Greek Cypriot members of the Cypriot Constitutional Commission to cancel yesterday's meeting.

The British Government and Dr. Fadil Kutub, leader of the Turkish Cypriot community, have been informed of the decision, he said.

The decision was believed to have been taken at a meeting yesterday of Greek members of the Transitional Cabinet attended by Archbishop Makarios. They are accused Sunday's arrest of a Turkish motor-car suspected of carrying arms and the tremendous repercussions it has caused off in the Greek Cypriot community.

Confers with Kutub

Before the release of the Archbishop's decision, he conferred with Dr. Kutub, after the latter had met with Mr. George Sinclair, Acting Governor in the absence of Sir Hugh Foot, and the Archbishop had met with Mr. George Christopoulos, the Greek Ambassador-Designate to the Republic of Cyprus.

Well-informed diplomatic sources said discussions at all of these meetings dealt with the British interception of the arms-laden Turkish motor car "Deniz."

Dr. Themistocles Dervis, right-hand man of Makarios, said yesterday that it was time to consider whether the agreements to establish Cypriot independence should be thrown into the waste paper basket.

Dr. Dervis, who has just returned from Israel, said in a statement published in the Greek language daily "Ethnos": "Instead of organizing celebrations, we should display flags at half-mast to mark the disaster which the Zurich agreement has brought upon our heads."

Iran Urges Concessions By Israel and Arabs

WINNIPEG (Reuters). — Dr. Nasrollah Safipour Fatemi, Persian Delegate to the U.N., said here on Tuesday that if the Israel-Arab conflict is to be settled there must be concessions from both sides.

YEIVIN WINS BIBLE QUIZ

Jerusalem Post Staff

TEL AVIV. — Dr. Yehoshua Yeivin, 68, Russian-born author and journalist, was crowned the 1959 Israel Bible Champion in the finals of the National Bible Quiz held at the Mann Auditorium here on Wednesday night.

He gained the championship by scoring 24 points, three more than the runner-up, Binyamin Magenta, 23, of Tel Aviv. In third place was Jerusalem's 17-year-old Yosef Tohi with 19 points.

The finals ended shortly after 1 a.m. with the prize-winning ceremony conducted by the Prime Minister, Mr. Ben-Gurion, who awarded certificates to the 12 finalists, drawn from the four previous regional quizzes early this month.

Dr. Yeivin had previously won the Central Region Championship, while Magenta had been the runner-up in the Tel Aviv District, and Tohi had come second in Jerusalem.

Justice Silberg presided and was assisted by Mr. Y. Elitzur, and by Mr. Y. Shalev, the poet and runner-up of the first Bible Quiz. The team of experts on the platform was headed by the first National Bible Champion, Mr. Amos Hacham.

The Prize Minister and Mayor Haim Levonon were in the front row of the auditorium which was filled mainly by young men and women.

The contest was preceded by a benediction recited by Shimon Shitreet, the lad who won the National Junior Bible Quiz earlier this year. The Hinei Choir performed.

The stage was decorated with the insignia of the Twelve Tribes, flanking the national flag.

Yugoslav goalkeeper Sostic leaps spectacularly to keep Rafi Levy, Israel's centre-forward (white shirt), from scoring in yesterday's Olympic Games soccer preliminary at Ramat Gan.

Israel-Yugoslavia 2-2 in Olympics Prelim.

By PAUL KOHN, Jerusalem Post Reporter

RAMAT GAN. — The "new look" Israel soccer XI on Wednesday afternoon had 42,000 fans wild with excitement when they played Yugoslavia to a 2-2 draw, after appearing, for one short spell, likely to win the match, which is the first leg of the Olympic Games preliminaries.

This was Israel's best achievement in many years. The surprise goals came from outside the penalty area. The first came in the sixth minute from a free kick just outside the penalty area which was diverted off an Israeli defender's leg past Goalek Chodoroff. The second found the net from a long-range drive when Israel led 2-1 and was piling pressure on the Yugoslav defence.

Twenty-two-year-old Captain Nahum Steinbach, at inside-right, was the hero of the match for Israel. He scored both goals. His mercurial bursts through the centre often had the Yugoslav defenders running in the wrong direction.

His second goal resulted from one of the most brilliant solo bursts ever seen in an international match here. He fixed onto the ball at the half-way line, weaving his way past three defenders and outpaced them as he headed straight for goal. Calmly he drove the ball past the oncoming goalkeeper into the roof of the net.

Two-minute lead

But Israel led only for two minutes, before Yugoslav inside-left Kostic beat Chodoroff from 25 yards, to level the score at 2-2.

The Israel Select played better than for many years and, particularly in the second half, the "new look" team was obvious. Gylis Mandi, the former coach of the Hungarian wonder team, has been training his choice of Israeli players for the past four months. Every player wearing the white shirt and blue shorts on Wednesday was fit, and only in the closing minutes were there any signs of tiredness.

After recovering from the early shock of playing one goal down, the Israelis showed that they are now capable of playing modern soccer. An even better team may be fielded for future international matches.

42,000 Hoarse But Happy

By SHALOM COHEN, Jerusalem Post Reporter

TEL AVIV. — More than 40,000 spectators, anxious and jittery when they entered the Ramat Gan stadium yesterday afternoon, came away jubilant and hoarse and as worn out as if they themselves had played in the game against Yugoslavia.

Inside the Israel team's dressing room after the battle, trainer and selector Gylis Mandi had this to say to the players: "It was a just result. All honour to the Israel players. Our terrific enthusiasm made us for what had appeared to be the other side's technique. Although the Yugoslavs had some advantage in the field, we had at least the same number of chances of scoring."

Steinbach, perhaps, put up the best show of the trainer said, but all had an equal share in the result. Mr. Mandi also singled out Menciell who "proved he could be a skilful fighter."

The local team's performance was referred to by Orhan Gurel, of Turkey, as "a fine performance. The game was a real battle between the two sides. The Israelis were very brave and showed a lot of spirit."

CASTRO IN-LAW TURNS OUTLAW

NEW YORK (Reuters). — A former brother-in-law of the Cuban Premier, Dr. Fidel Castro, has identified himself as head of "The White Rose" movement fighting the Castro regime.

Dr. Rafael Diaz Balart, a 32-year-old lawyer living here, claimed on Tuesday night to have thousands of young guerrillas in Cuba fighting against the regime. He said his movement "respects every one that works against Castro, but is working with absolute independence of every other group."

Dr. Balart, Minister of Transport under the Batista regime, made his statement here following a charge in a pro-Castro newspaper in Havana that former officials of ex-President Fulgencio Batista were recruiting anti-Castro volunteers in New York.

Dr. Balart's sister Mirra was married to Fidel Castro in 1948 and is the mother of his son, Fidel Jr. The marriage has been dissolved.

It was announced in Havana yesterday that Major Hubert Matos, Military Commander in Camaguey Province, has been arrested on a charge of high treason.

He is alleged to have tried to sabotage the revolution of the agrarian reform laws. Dr. Castro went to Camaguey yesterday with his army chief, Major Camilo Cienfuegos.

U.S. Steel-workers Ordered Back

PITTSBURGH (Reuters). — A federal judge yesterday issued an injunction under the Taft-Hartley Act ordering 60,000 striking steelworkers back to work temporarily.

The United Steelworkers Union said it would file an immediate appeal against the decision, in a federal court of appeals in Philadelphia.

The injunction orders the strikers to return to work for an 80-day "cooling off" period. The strike began 30 days ago over new wage demands.

Russians Claim New Flu, Mumps Vaccines

JERUSALEM Post Correspondent

ATLANTIC CITY. — An effective live virus vaccine against influenza has been developed in the Soviet Union, Dr. A. Smorodintsev, Lenin Prize winner, reported to the American Public Health Association here on Tuesday.

The Russian said that 20 million persons are to be immunized annually by squirting the live vaccine up the nose, and that one million have so far been treated. In addition, 12 million Russian children have received the Sabin live Polio vaccine recently tested in Israel.

The Russians have also recently developed an effective live vaccine against mumps, and are now working on a vaccine against measles, he reported.

Chessman Given Further Stay

WASHINGTON (Reuters). — The Supreme Court yesterday granted another stay of execution to convict-author Caryl Chessman. The stay, until November 3, is to enable him to appeal again on the ground that his trial had not been fair.

In San Quentin's Death Row for 11 years, evading the gas chamber again and again with appeals, Chessman has taught himself law, and written three best-sellers.

Now rich and famous, Chessman has found many defenders, among them Vatican City's "Observer" magazine, which said in a leading article on Tuesday that he has by now exalted his crime.

Ceylon Ministers Arm As Emergency Extended

COLOMBO (Reuters). — A police officer was arrested last night in connection with the murder last month of Prime Minister Solomon Bandaranaike.

He was identified by a police spokesman as Inspector Newton Perera of the Kollupitiya police station in the heart of Colombo. Perera, the fifth man arrested since the murder, is to appear before a magistrate today.

At least four Cabinet Ministers have obtained new licences to carry revolvers for their personal protection, the coroner's court yesterday said.

Since the assassination of Bandaranaike, personal guards have been assigned to Ministers and centres have been posted at their homes.

The Government decided yesterday to prolong for a second month the state of emergency, proclaimed when the Prime Minister was assassinated.

All Five Texas Quins Die

SAN ANTONIO, Texas (Reuters). — Baby "D," the last survivor of girl quintuplets born here on Tuesday, died yesterday morning shortly before 7 o'clock. She had lived only 19 hours.

Four of the babies, born to 27-year-old Mrs. Cecilia Hannan, died on Tuesday within 10 hours of their birth in Lackland Air Force Base Hospital. All had been baptized at birth by a doctor.

Baby "L," so designated because she was the fourth to be born, survived the night in an incubator, but died soon after the doctor in charge had issued a statement saying he was "not very hopeful."

Mrs. Hannan — her husband described her as a "pretty, blue-eyed blonde" — was "doing well," she already has two more aged four and five.

Ben-Zvi Tours Upper Burma

MANDALAY (Reuters). — The President of Israel and Mrs. Ben-Zvi arrived here by air yesterday from Rangoon for a visit to Upper Burma.

They were accompanied by Burma's President, U Win Maung, and his wife. They were welcomed at the airport by an official party headed by the North Burma army commander, and the civil commissioners for North Burma and Mandalay.

The Israel visitors, who were staying in the Burma President's summer residence in the hill town of Maymye, 70 kilometers from Mandalay, were given an enthusiastic welcome by crowds waving Israeli and Burmese flags as they drove into Mandalay.

After a civil reception, President Ben-Zvi visited the famous Arakan Pagoda. He then drove along the coast of the Irrawaddy River to see the pagoda which is the most sacred of the many pagodas and monasteries.

Prior to a round of social engagements on Tuesday, Mr. Ben-Zvi presented Prime Minister General Ne Win with 100 U.S. sub-machineguns for the Burmese Army, which is still waging a prolonged war against insurgents.

De Gaulle May Meet Nikita

PARIS (Reuters). — President de Gaulle yesterday took a firm stand against any attempt to rush into a summit meeting with the Russians.

In a carefully-worded communique made in the name of the General himself, the French Government announced its strong preference for holding a summit meeting not earlier than next spring.

It gave a series of reasons, including the need for careful preparation and the desirability of previous inter-allied meetings.

But in particular the communique made it quite clear that the Government considered that some genuine reduction in tension between East and West must take place before any fruitful attempt to solve East-West problems can be made.

The communique mentioned the nature of the coming debate at the U.N. as one test of whether a reduction in tension had really taken place. This was taken to mean here that, among other things, the Government wanted to see first how the Soviet Government acts in an eventual discussion at the General Assembly of the Algerian problem.

The Information Minister, Mr. Roger Frey, was asked whether there were any plans for a meeting between Mr. Khrushchev and General de Gaulle. He said: "I cannot confirm or deny any reports on that subject."

From other sources close to the Government, it is learned that a meeting between General de Gaulle and the Soviet Prime Minister has been agreed on, though the time and place have not yet been fixed.

The newspaper "France Soir" said yesterday in a special edition that a meeting between President de Gaulle and Mr. Khrushchev was possible in "the next eight days."

In Washington, President Eisenhower is assumed to have discussed summit prospects yesterday in a 45-minute conference with Mr. Christian Herter, his Secretary of State, before leaving for a five-day golfing holiday in Georgia. Paris says the President was informed in advance of the French state-

Renault Discussed By French Cabinet

By ISRAEL NEUMANN, Jerusalem Post Correspondent

PARIS. — The French Cabinet yesterday held its first discussion of the Renault affair in response to the demands of certain Ministers. No conclusion was reached and the question will be re-examined in the near future. The matter is expected to come up in the National Assembly next week.

The Renault Company promised to publish by last night a communique explaining the nature of its decision to pull out of Israel, but delayed the publication, possibly as a result of second thoughts in view of the strong reaction to the move.

M. Jacques Soustelle, Minister of State attached to the Prime Minister's Office, has already brought the Renault affair before Premier Michel Debre, according to the independent daily "Le Monde."

A delegation under Mr. Soustelle reportedly met yesterday with Renault's Managing Director, M. Pierre Dreyfus.

The matter was also raised in Tuesday's Anniversary Meeting of the Franco-Israel Alliance Committee by the Mendeist former Deputy Philippe Decharrie, who accused the Government of passively accepting the Renault capitulation. He asked M. Dreyfus to reconsider the decision and to send a letter to President de Gaulle requesting him to prevent a French surrender to Arab blackmail.

Election Fear

The speaker expressed his fear that Israel's elections might be held here in France, and accord a victory to a "pro-British or pro-American party."

Mr. Soustelle stressed the significance of the presence of two Algerian Deputies, All Nalem and Bachaga Boualem, saying it demonstrated the strong fit within the Alliance was formed and in which it operates.

Mr. All Nalem paid tribute to Israel for finally entering the world of the "Promised Land" and said that the enemies of France were the same forces as the enemies of Israel.

Mr. Ariele Ben-Eliezer, Herut Knesset Member, expressed the view at a press conference that the Renault decision can still be changed and that there is every prospect for a successful conclusion to the affair through increased diplomatic effort.

Mr. Ben-Eliezer claims that the French Cabinet only now realize the political implications of the affair. The Committee is submitting a letter to President de Gaulle on noting that, but it is worth noting that the President has already been informed of the affair through one of his advisors.

Among the abstentions were Britain, France, India, Yugoslavia and the Afro-Asian group.

Soustelle Tip Saved Regime

JERUSALEM Post Correspondent

PARIS. — It is rumoured in political circles here that M. Jacques Soustelle was the Minister whose warnings to Premier Debre were decisive in alerting the Government to a concerted subversive action planned for last week-end by the extreme right, with the intention of overthrowing the Government.

M. Bidault, who is thought to have been designated as Premier by the would-be rebels, is still under police supervision.

once took the Yugoslavians by surprise, according to one of their exiles, "Israel played much better than it did against us five years ago," he told the Post.

In previous Israel-Yugoslavia soccer encounters, the latter won 6:0 and 3:2 in 1948, 1:0 in 1953, and 1:0 in 1954.

Seldom has such cheering been heard at the stadium as in yesterday's second half of play. Before the kick-off, the huge crowd were rehearsed over loudspeakers in roiling "El El Ya-Ra-El" which came fast and loud and abruptly subsided only too soon when Yugoslavia opened the scoring.

The temperamental crowd rallied in the second half together with the home Eleven as the tables began to turn. So used to seeing losing games, the fans went wild when a man in a black jacket potted in Israel's first goal.

When the second goal followed, they forgot the slogan and simply roared and whirled noisemakers.

The game was played in brilliant sunshine, and the light-blue shirts, white shorts and red socks of the Yugoslavians, and the Israeli white shirts, light-blue shorts and blue socks stood out against the dazzling green field. Towering over everything was the Israeli flag.

The Israeli and Yugoslav flags, and the Turkish flag, were at the outer edge of the stadium.

Good Organisation

The outstandingly smooth organization outside and inside the stadium, the handling of traffic and the crowd, the high praise is round. Some 40 policemen were mobilized for the event. Some 40 youths were arrested for trying to get in without tickets.

Hours before the 3 p.m. kick-off, the roads to the stadium were one mass of traffic. The Yugoslavians, including a number of fire engines, were in the stadium.

The usual vendors were in full force around the stadium, but a new note was the carpet of election leaflets which literally covered a good stretch of the road. Also new were free programmes of the match distributed by the Israel Football Association.

VISITORS' GALLERY: Daniel Fernandez Crespo

TEACHER-STATESMAN

For 30 years, the Blancos Party has been in opposition until half of Uruguay's one-million voters put it back into power last March. Mr. Daniel Fernandez Crespo, one of the Blancos' chief leaders, explained proudly in his long road to political victory is also part of his own life story since he has been with the Blancos since early youth.

In 1931, the then 20-year-old teacher was elected to the Uruguayan Parliament, rose to the rank of Senator and in the past four years represented the opposition in the one-man National Council of Government. The National Council is Uruguay's supreme governing body whose members rotate in between the President and the Council for one year.

Mr. Crespo, who is now President of the Departmental Council of Montevideo, and Mrs. Crespo, leaving on a 10-day visit. He believes that the best advice a foreign visitor can give Israel is that the country was living in a time of great change. He hopes for even closer relations between Uruguay and Israel, a country that strives for equality, freedom and tolerance as does Israel, deserves Uruguay's greatest sympathy, he said.

Mrs. Meir's Visit

"Without wanting to influence the outcome of your elections," Mr. Crespo said smilingly, "I can't help recalling the deep impression on the people of Uruguay that your Foreign Minister, Mrs. Golda Meir, made on her recent visit there."

Uruguay's economic situation was pretty grim at the time of the March elections. The country was living beyond its means and a great deal of foreign currency was spent to import luxury goods, the dynamic Latin American statesman, whose youthful and handsome appearance belies his 56 years, said emphatically when filling in the

background of his party's victory.

Things became even worse when the spring floods destroyed most of Uruguay's grain crop and the people accepted the Blancos' programme. It called for drastic measures to strengthen the country's economy by encouraging the import of industrial and agricultural goods and equipment and putting high custom tariffs on imported luxury items, Mr. Crespo explained.

Still, the Blancos are split internally despite their recent political victory. The Harrold faction, a small after the veteran party leader, 65-year-old Dr. Luis Herrera who recently retired from his formal activities, controls the National Council of Government, headed this year by Dr. Martin Echegoyen who is thus Uruguay's President. The second faction is Mr. Crespo's own Union Blanca Democratica. He is President of the Departmental Council of Montevideo and the Uruguayan Parliament.

Mr. Crespo's family has been teaching in secondary schools for three generations. As a young teacher, he was drawn to politics, and education and social legislation are his chief interests today.

ASYLUM. — Arthur Wegener, Professor of Law at Muenster University in West Germany, has asked the East German Government for temporary asylum, because there had been an "infamous campaign" against him since last July when he advocated recognition of Communist East Germany.

On September 1, 1959, Mr. Elias came as usual to visit the child in her grandparents' home in London. He had been in London for the last six months. Their baby daughter, Deborah Amanda, now sixteen months old, has been living with her mother in the home of the latter's parents in London.

The father never took any legal action to gain custody of the child and apparently did not object to her living with her mother.
